MIKE MILLER

I'm an English teacher and I have a big family, so I have a very busy daily routine! First, I get up every day at six o'clock, get washed and dressed, and leave for work by seven-thirty. I get to school at eight o'clock. I prepare my lessons and then teach until noon. The other teachers and I always eat lunch and talk together in the teachers' room. I teach again in the afternoon and then I correct my students' homework and tests. After I get back home, I help my kids with their homework. I have three kids in elementary school. Their names are Mathew, Jon and Suzie. Then, I do some exercise, eat dinner with my family and watch TV before I go to bed at about ten o'clock. We love to watch travel shows. Finally, I read in bed for a few minutes before I fall asleep.

KELLY SMITH

Well, I almost always get up very early, at about five-thirty. I get up early because I like to go jogging along the beach and watch the sun rise. Later, after breakfast, I go to work. I work in a bank near my home. I don't drive to work. I take a bus. It only takes about twenty minutes to get to work. After work, I like to go to my favorite bakery and buy some fresh bread. I get home between five o'clock and five-thirty. My husband Michael usually makes dinner because he loves to cook. In fact, he is a chef in a restaurant. His hobby is painting, and my hobby is growing flowers in our garden. We also have a pet dog called Wolfie. In the evenings we take Wolfie for a walk, and then get to bed by nine-thirty because we have to get up so early again the next morning.

4. Language Focus

Asking for and telling the time and present simple tense

Telling and asking for the time

There are two common ways of telling the time.

1. Say the hour first and then the minutes. (Hour + Minutes)

► 6:20 - *It's six twenty.*

► 9:41 - *It's nine forty-one.*

2. Say the minutes first and then the hour. (Minutes + PAST / TO + Hour)

For minutes 1-30 we use **PAST** after the minutes.

- ▶ 6:20 - *It's twenty past six.*
- ▶ 8:05 - *It's eight O-five (the O is said like the letter O)*

For minutes 31-59 we use **TO** after the minutes.

- ▶ 9:41 - *It's twenty to **nine**.*
- ▶ 11:34 - *It's twenty-five to **twelve**.*

When it is **15 minutes past** the hour we normally say: **(a) quarter past**

- ▶ 7:15 - *It's (a) quarter past seven.*

When it is **15 minutes before** the hour we normally say: **a quarter to**

- ▶ 12:45 - *It's (a) quarter to one.*

When it is **30 minutes past** the hour we normally say: **half past**

- ▶ 3:30 - *It's half past three (but we can also say three-thirty).*

O'clock

We use **o'clock** when there are NO minutes.

- ▶ 12:00 - *It's 12:00 o'clock.*

Asking for the Time

The common question forms we use to ask for the time *right now* are:

- ▶ *What time is it?*
- ▶ *What is the time?*

A more polite way to ask for the time, especially from a stranger is:

- ▶ *Could you tell me the time, please?*

Giving the Time

We use **It is** or **It's** to respond to the questions that ask for the time right now.

- ▶ ***It is** half past five (5:30).*
- ▶ ***It's** ten to twelve (11:50)*

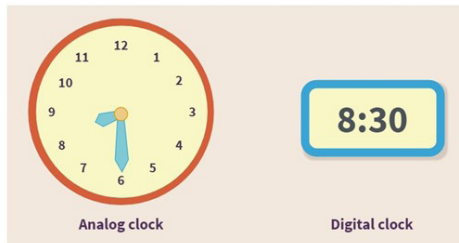

AM vs. PM

We use **a.m.** (am) for the morning and **p.m.** (pm) for the afternoon and night.

- ▶ *3am = Three o'clock in the morning.*
- ▶ *3pm = Three o'clock in the afternoon.*

Analogue vs. digital

We have two types of watches/clocks: analogue and digital.

Task 1: Look at the times in digits in the table below and match them with correct **Hour + Minutes** statements and **Minutes + PAST / TO + Hour** statements. Number one is done for you – use it as an example.

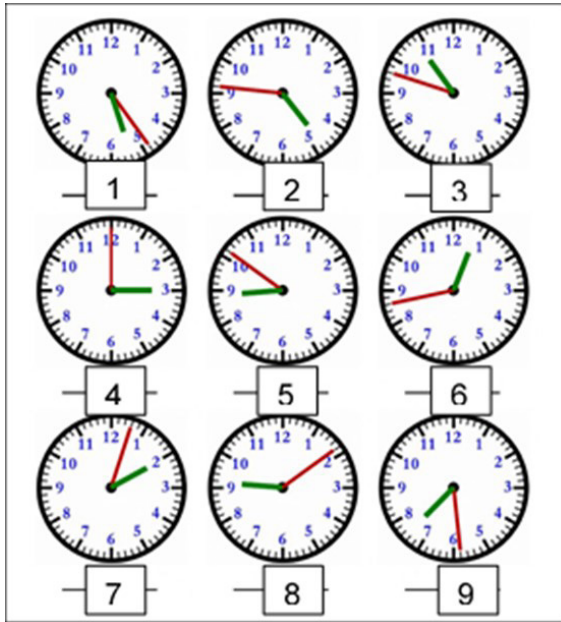

#	Time	Hour + Minutes correct statements	Minutes + PAST / TO + Hour correct statements
1	8:30	It's ten thirty-five.	It's twenty past twelve
2	2:30	It's one forty-five.	It's half past two.
3	12:20	It's eight thirty.	It's half past eight.
4	1:45	It's twelve twenty.	It's quarter to two.
5	10:35	It's two thirty.	It's twenty-five to five.

Task 2: There are eight analogue and digital clocks/watches in the box. Complete the sentences for each clock/watch.

1. It's _____ past eight.
2. It's quarter _____ one.
3. It's quarter _____ eight.
4. It's quarter _____ seven.
5. It's twenty past _____.
6. It's five past _____.
7. It's twenty-five _____ nine.
8. It's twelve _____.

Task 3: Use the clocks below to tell the time in writing. The first clock answer is done for you: #1. *It's twenty-five past five. It's five thirty-five.* What time is it from 2-9?

Present simple tense – everyday activities

Use the Present Simple when you want to talk about something you do regularly or repeatedly.

▶ I	play football	every day.
▶ You (singular)		
▶ You (plural)		
▶ We	don't play football

Subject	Verb	The rest of the sentence
► He	plays football	every day.

We use how often to ask questions about frequency. how often comes at the beginning of the clause. Examples:

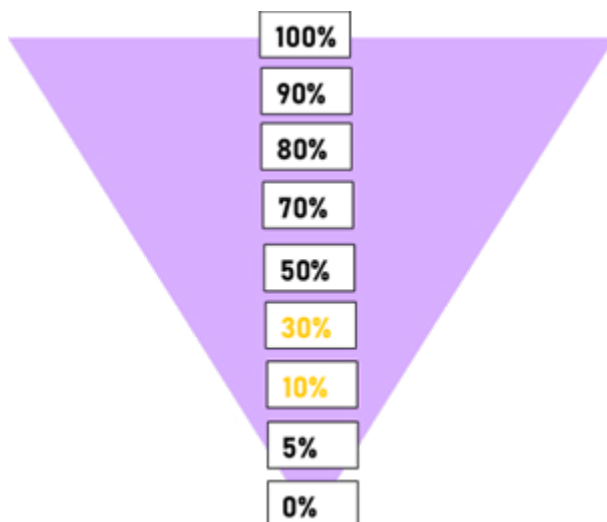

How often do you go to the cinema?

How often have you been here?

Task 1: The bolded words in the reading text are Frequency Adverbs. Look at the pyramid below and match them with the percentages written in black to show their level of frequently.

Example: 100 % is always and 0 % is never. It means when we say always do something we mean 100% all the time and when we say never we mean we don't do it all.

Do the rest – 90%, 80%, 70%, 50%, and 5%.

Countable nouns

Countable nouns are for things we can count using numbers. They have a singular and a plural form. The singular form can use the determiner "a" or "an". If you want to ask about the quantity of a countable noun, you ask "How many?" combined with the plural countable noun.

Singular	Plural
▶ one dog	▶ two dogs
▶ one horse	▶ two horses
▶ one chair	▶ two chairs
▶ one window	▶ two windows
▶ one pen	▶ two pens

Examples

- ▶ There are three dogs in the doghouse.
- ▶ There is a pen on the table.

Uncountable nouns

Uncountable nouns are for the things that we cannot count with numbers. They may be the names for abstract ideas or qualities or for physical objects that are too small or too amorphous to be counted (liquids, powders, gases, etc.). Uncountable nouns are used with a singular verb. They usually do not have a plural form.

Examples

- | | | |
|---------|-------------|----------|
| ▶ tea | ▶ air | ▶ love |
| ▶ sugar | ▶ knowledge | ▶ money |
| ▶ water | ▶ beauty | ▶ safety |

We cannot use a/an with these nouns. To express a quantity of an uncountable noun, use a word or expression like some, a lot of, much, a bit of, etc. We can also use an exact measurement like a cup of, a bag of, 1kg of, 1L of, etc. If you want to ask about the quantity of an uncountable noun, you ask "How much?"

Examples

- ▶ There is a lot of research into the causes of this disease.
- ▶ Can you give me some information about uncountable nouns?
- ▶ There isn't much sugar left.
- ▶ Measure: 1 cup of water, 300g of flour, and 1 teaspoon of salt.
- ▶ How much rice is there?

Prepositions of place

In general, we use:

- at for a POINT
- in for an ENCLOSED SPACE
- on for a SURFACE

At POINT	In ENCLOSED SPACE	On SURFACE

at the door	in Qatar	on the door

at the front desk	in a car	on a page

Look at these examples:

- There is milk **on** the floor.

We can also use other prepositions of place such as behind, in front of, next to, under, between, etc.

I love our pets! Our dogs like playing **in** the garden **behind** our house, sleeping **under** my bed and sitting **in front of** the TV. Our hamster lives **in** a cage **next to** our fish. He has a little house **between** his wheel and his water. He's **on** his wheel now!

5. Pronunciation

Word stress – compound words

Word stress is the emphasis we place in a specific syllable of a word when pronouncing it. A syllable is a part of a word that contains a single vowel sound and that is pronounced as a unit. We place emphasis on one syllable, while the other syllables are given less emphasis. English words only have one stressed syllable. Whilst longer words can have a secondary stress, it is always a much lighter stress. When we stress, the vowel sound of the stressed syllable is emphasized by being pronounced longer, louder, and often at a higher pitch than the surrounding syllables.

Example:

- Garage - /gUH'RrAHzh/
- Garden /'gaa rdn/
- Apartment /uh'paat muhnt/
- Building /'bil duhng/
- Shop /'shop/

Task: Look at the following compound nouns. Listen to your teacher saying them. Count the syllables by underlining the syllables separately and marking the stresses by placing an apostrophe before the stressed syllable.

- | | | |
|---------------|-----------------|--------------------|
| a. Doorbell | h. Bookshelf | o. Washing machine |
| b. Bedroom | i. Toothbrush | p. Front door |
| c. Bathroom | j. Toothpaste | q. Dining room |
| d. Doormat | k. Tablecloth | r. Swimming pool |
| e. Dishwasher | l. Water tank | |

The Schwa /ə/ (uh) sound in English

The Schwa sound /ə/ (**uh**) is the most common sound in the English language. It occurs only in unstressed syllables and getting it correct helps spoken English to sound more natural and fluent.

Banana	Pepper	Butter
Avocado	Lemon	Vegetable
Blender	Salad
